General Info:

Our business – we produce and market the following ranges of product – GAJO Painted Historical Miniature figures, Wasatch Miniatures pewter historical figures, TommyGunner Painted WW2 figures, and Table Top Towns Painted Buildings and Scenics. We also operate a retail shop in Sandy, Utah, and provide our retail product lines to internet and mail order customers. Our key retail product lines are Flames of War, Games Workshop, JR Miniatures terrain, Osprey books, Warlord Games and Great War Miniatures, Vallejo & GW paints and various lines of gaming terrain.

Basing – our figures are sold un-based, so that you can base them as you wish. We will base and grass figures on request for 75 cents per figure to your specifications (including metal stands and flocking). Lead time on basing varies based on our order load, but on average expect an additional week or two to fill your order.

Individual Figures / Custom Units – although we produce our painted figures in sets, tailored to the way many gamers build their units, we recognize that many of you have special requirements for your favorite or local rules set. On request, we will happily break sets or provide a tailored mix of figures to your specific requirements – email us for additional detail if you are interested. Note that we charge slightly more for figures purchased this way as it increases our costs – both the set price and the "each" price is noted throughout the catalog and on our website.

Shipping – we charge a flat $9 shipping and handling fee on each US domestic, Canadian and Mexican order. Outside North America we charge a flat $18 shipping and handling fee. We ship domestic US orders via Priority Mail, for delivery within 2-3 business days within the United States. International orders are shipped air post.

Note that certain large or bulky items (such as large terrain sets) are exempt from flat shipping and will be shipped at actual cost, please contact us for details.

Discounts – we offer the following discounts on very large orders. US Domestic orders in excess of $600 receive free shipping, and all orders in excess of $1,000 receive a 10% discount. Note that discounts apply only to newly painted figures and accessories, not to used figure lots or used books.

Special Requests – your satisfaction is our number 1 priority. We will do everything in our power to accommodate your special needs or requirements if you make them known to us.

Wasatch Miniatures

About Us -

Wasatch Miniatures is a new historical miniatures company. Our purpose is to provide high quality historical figures for gamers and collectors alike. All our figures are sculpted based on extensive historical research, and cast in top quality pewter. We offer three ranges at present, 28mm French and 28mm British for the French and Indian War, and 28mm Napoleonic Dutch from the 1815 Campaign. The FIW line is designed to allow gamers to field the forces in Canada in their actual dress, the Canadian-issued uniform and both summer and winter campaign dress, while the Dutch range fills a hole in many other ranges.
